

Dear Juan Ramírez-Heredia,

Dear brothers and sisters,

We would like to congratulate the Roma Community on the 40th anniversary of the important Roma's Day celebration, marking the event that took place in London on 8th April, where a new future for this martyred community was envisaged. The Roma people have suffered throughout the years all kinds of persecution and discrimination, which is inadmissible. Discrimination must be cease and this community and its traditions deserve respect and the opportunity to celebrate this date with enthusiasm and hope.

Wishing the Roma community around the world a joyous and rewarding celebration,

Best regards,

João Proença

(General Secretary of UGT)
